Email TeamMate

Share emails in a conversation without leaving Teams. Colleagues can reply to shared emails directly from the conversation.

Bring Everything Together in SharePoint, Microsoft Teams, and OneDrive
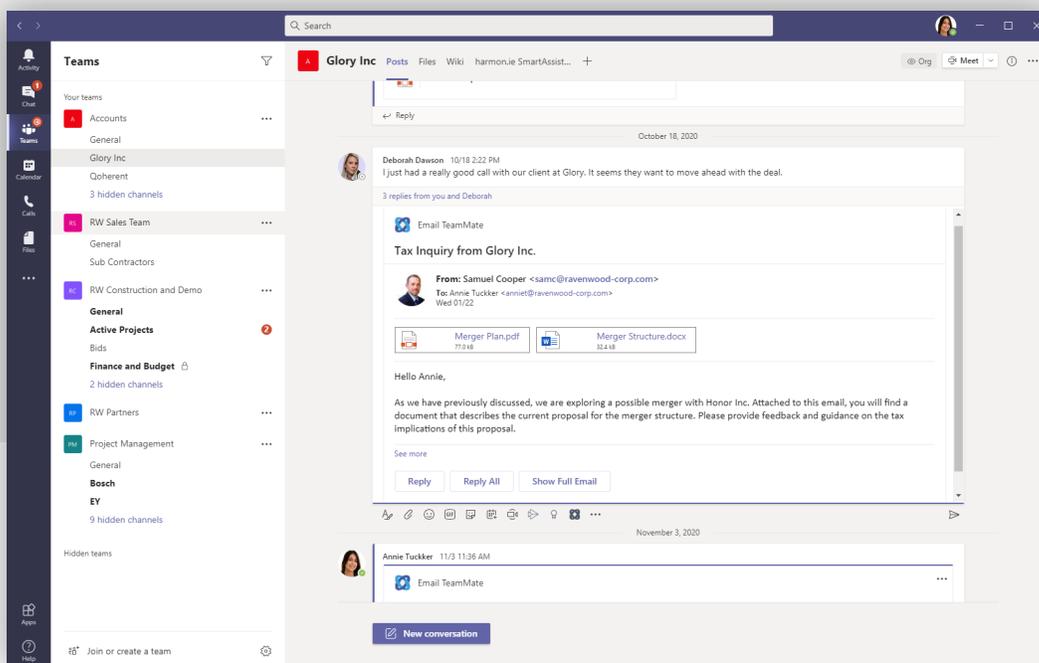

harmon.ie enables you to be fully productive, in and out of your office, right from the places you already spend your work time - email, Office applications, and Microsoft Teams.

harmon.ie's key capabilities include the following:

- Drag and drop emails and attachments directly from Outlook into SharePoint or Teams channels, so everything your team needs is available in one place.
- Add emails to conversations without leaving Teams. Discuss emails received from external suppliers, customers, and partners with your colleagues, and let your colleagues answer your emails, directly from Teams.

- Discover content using search, filters, sort, favorite locations, and sophisticated and flexible views. Using harmon.ie's unique metadata search, you can find related information across multiple locations, in a single screen.
- Preview emails and documents stored in SharePoint or Teams, without leaving Outlook.
- Classify emails and documents using SharePoint metadata so they can be easily found later

Drive Microsoft Teams Adoption

Collaborate with co-workers inside Microsoft Teams, about emails exchanged with external suppliers, customers, and partners. Quickly find the email you want to share with colleagues using a native Outlook interface within Teams. Co-workers can click to open emails you've added to Teams conversations. Then, they can reply to an email with a single click.
